

RAISED BED GARDEN

A simple & easy way to build a no dig garden bed on ANY surface.

Method

- Mow or slash lawn, sprinkle with lime & wet the whole area thoroughly
- Lay down thick layer of cardboard, newspaper to stop weeds
- Mark out paths with stones, bricks, logs, or star picket sheets of iron around bed
- Throw in garden clippings and any weeds from the garden
- Add a thick layer (15cm) of hay, dried grass, lucern, mulch, rice hulls, or oat husks
- Add a thick layer (10-15cm) of rotted manure
- Repeat process with hay/manure
- Ready to plant seedlings with a couple of handfuls of quality soil/compost

Important Point

- Water each layer thoroughly before adding next layer
